Preview this quiz on Quizizz. Though forks were first used in China thousands of years ago, it took a long time for them to make their way to what is now the United States. Ancient Greeks began using forks after the Chinese. However, they did not use forks for eating. They used them for serving food. From Greece, forks moved to the Roman Empire. Romans first used long forks for cooking ...

"A bear, however hard he tries, grows tubby without exercise." – A. A. Milne You don't need to knock yourself out at the gym each day to reap the many health benefits of daily exercise.

10 Health Benefits of Daily Exercise - Psych Central

Exercise challenges the cardiovascular, pulmonary, and musculoskeletal systems and it can have profound metabolic effects. In contrast to our extensive knowledge about the peripheral adaptations to exercise, information about the specific effects of exercise on the central nervous system (CNS) is relatively limited . The inherent complexity of the CNS and the methodologic difficulties in evaluating the in vivo neurochemistry of the human brain and spinal cord have hindered the advancement of ...

Exercise and Its Effects on the Central Nervous System ...

Moderate aerobic exercise includes activities such as brisk walking, swimming and mowing the lawn. Vigorous aerobic exercise includes activities such as running and aerobic dancing. Strength training can include use of weight machines, your own body weight, resistance tubing or resistance paddles in the water, or activities such as rock climbing.
