Biomedical Engineering Toolbox

In some regions of the world, rapid tests, also known as lateral flow tests, have been a regularly used tool in the pandemic toolbox. But in Canada, these tests are scarce, except for in a few areas, ...

---

Experts recommend using more rapid tests, so why is Canada so far behind other regions?

COVID-19 is a respiratory illness that can lead to lung failure, requiring some patients to be sedated and placed on mechanical ventilation. Helping extremely ill patients like this is the ...

---

Getting to the heart of the matter, with COVID-19 patients

Rather than relying on foreign carriers, SEND commandeers human proteins to make delivery vehicles that shuttle in new genetic elements.
