The fun and easy way to repair anything and everything around the house For anyone who's ever been frustrated by repair shop rip-offs, this guide shows how to troubleshoot and fix a wide range of household appliances-lamps, vacuum cleaners, washers, dryers, dishwashers, garbage disposals, blenders, radios, televisions, and even computers. Packed with step-by-step illustrations and easy-to-follow instructions, it's a must-have money-saver for the half of all homeowners who undertake do-it-yourself projects.

This book contains the lecture notes for the NATO Advanced Research Workshop on th Green Industrial Applications of Ionic Liquids held April 12th_16 , 2000 in Heraklion, Crete, Greece. This was the flrst international meeting devoted to research in the area of ionic liquids (salts with melting points below 100 0c), and was intended to explore the promise of ionic liquids as well as to set a research agenda for the fheld. It was the flrst international meeting dedicated to the study and application of ionic liquids as solvents, and forty-one scientists and engineers from academia, industry, and government research laboratories (as well as six industry observers and four student assistants) met to discuss the current and future status of the application of ionic liquids to new green industrial technologies. It

was immediately clear that the number of organic chemists and engineers working in the field needed to be increased. It was also clear that the declining interest in high temperature molten salts and subsequent increase in low melting ionic liquid solvents had not yet taken hold in Eastern Europe. Participants from NATO Partner Countries contributed significant expertise in high temperature molten salts and were able to take back a new awareness and interest in ionic liquid solvents.

This book contains some of the papers presented at the ACS meeting symposium Ionic Liquids: Science and Applications, held at the 243rd National ACS meeting.

Old secrets die hard in the Tavistock family... In Their Footsteps The quiet scandal surrounding her parents' deaths twenty years ago has always haunted Beryl Tavistock. Now she's decided that the only way to exorcise the ghosts of the past is to search for the truth. Beryl starts asking dangerous questions, and the answers are proving that old secrets die hard. Caught in what's become a deadly game of cat-and-mouse, her quest takes her from the rain-slick streets of Paris to the sun-drenched isles of Greece. And as she gets pulled into a world of espionage, Beryl quickly discovers that she needs help. Richard Wolf, an ex-CIA agent and a man she's only just met, is her only hope. But in a world where trust is a double-edged sword, friends become enemies, and enemies become killers... Stolen Reformed cat burglar Clea Rice has witnessed enough crimes to put her on the straight and narrow. But little does she suspect that her search for justice will land her in the arms of wealthy English gentleman Jordan Tavistock. As their attraction grows, so does the danger. Now their biggest concern isn't whether a proper gentleman and a cat burglar can find happiness...it's whether they'll survive long enough to find out.

Praise for The Completely Revised HANDBOOK OF COACHING "Pam McLean has written a jewel of a book. Its straightforward, easy-to-read style lays out an elegantly simple, effective, and agile coaching methodology. This will become a well-used ('dog-eared,' in the days before e-books) guidebook for both the new and the seasoned coach." —MARY BETH O'NEILL, author, Executive Coaching with Backbone and Heart "A welcome and comprehensive update of the original Handbook, this theoretically grounded, yet highly practical book presents important integrative coaching models that deal with complex coaching issues in an easy-to-read way. This book will be of use to novices and experienced coaches alike." —ANTHONY M. GRANT Ph.D., coauthor, Evidence Based Coaching Handbook; faculty, University of Sydney "I love this book. Pam McLean offers the most comprehensive and clear explanation of use of self—why it is important and where we need to focus our attention—that I have ever read. In addition, she describes the robust Hudson coaching methodology clearly with lots of examples and always links theory to practice." —RICK MAURER, author, Beyond the Wall of Resistance; faculty, Gestalt Institute of Cleveland "The new Handbook of Coaching is intellectually satisfying and pragmatically rich, a tour-de-force grounded in a thorough exploration of adult development and coaching models. This major rework of Hudson's classic offers practitioners extensive guidance on coach methodology, the system dynamics of change, and the crucial use of self. Leadership coaches at any level will find this an invaluable resource." —DOUG SILSBEE, author, Presence-Based Coaching "With an emphasis on thoroughly understanding one's self as a coach and supporting one's clients to understand themselves, as well as their contexts, Pam's book is very resourceful both practically and conceptually. Her very current real-life examples are insightful and useful." —EDIE SEASHORE, M.A., author, Triple Impact Coaching

Thoroughly revised and updated, the second edition of this well-respected book provides the most comprehensive coverage of structural design, ideal for undergraduates in all years of civil engineering and structural engineering courses. Fully up-to-date with the most recent structural Eurocodes, it provides a detailed study of design using the four most important materials for construction: concrete, steel, timber and masonry. Design of Structural Elements - is fully up-

to-date for the structural Eurocodes - features a wealth of practical problems and real-world examples - includes more than 500 easy-to-follow diagrams - comprehensively covers all the key topics, including a detailed section on structural analysis Translating theory into practice with plenty of worked examples, this user-friendly text is an indispensable resource both for students and for practising engineers looking to refresh their knowledge.

Viviane, a beautiful Celtic princess, unwittingly unravels the spell that binds the spirit of the evil Idoc within a circle of tall stones. Once released, the sorcerer-priest uses his powers to deliver vengeance upon those responsible for his original enslavement - including the Princess Viviane. With Idoc in possession of the body of Prince Caradawc, her betrothed, Viviane can no longer judge safely between friend and foe, between this life and previous incarnations. Yet to rescue Caradawc from his nightmare, she must risk everything to reach the dreaded dark tower where Idoc waits. And, to ensure victory over evil, she must seek out Lucifer's Emerald. She journeys through dreams and nightmare, beauty and horror, good and evil to save her lover and destroy the sorcerer-priest. This is a quest for spiritual grace which is beautifully depicted and includes all the timeless ingredients of legend.

Their principality greatly truncated by the English armies, Llewelyn and his beloved wife, Eleanor, are left to rule a much smaller state in the heart of Gwynedd and Snowdonia. Llewelyn is patient with the arrogant bickering of Edward's men and rejoices in the renewed loyalty of his younger brother David - the same David who has twice betrayed him. But loyal or treacherous, David is always impetuous and his rash actions precipitate a new war against the forces of England. Llewelyn finds himself trapped in a situation where the only solution is his own downfall and a tragic death...

While honing her skills as a demon summoner, FBI agent and Louisiana Homicide Detective Kara Gillian must clear her name when people who have hurt her in the past start dying. Original.

In SAY NO TO DIABETES, nutrition expert Patrick Holford presents a complete action plan for sufferers of Diabetes type 1, Diabetes type 2 and the forerunner of Diabetes 2, Metabolic Syndrome, with motivating case histories and supported by the latest scientific findings. He advises on the causes of the current diabetes problem, explains the 10 secrets for preventing and reversing diabetes and Metabolic Syndrome, and provides an anti-diabetes diet, a daily supplement programme, and advice on how to undo the damage caused by diabetes and diabetes drugs. This easy-to-follow programme will help you regulate out-of-control blood sugar levels safely and effectively, with no dangerous side effects.
