The virus of the Greek debt crisis was cultivated among the Greek Diaspora. In the U.S., "charitable" organizations like the churches, the Patriarchate's representatives, as well as the Greek speaking media have all contributed to the country's bankruptcy by siphoning money away from the ever-corrupt Greek governments for a long time. Indications and evidence point that funding intended for the development of the Greek economy has been diverted and pocketed by individuals who wear patriotism on their lapel.Greek-American Pimps is about the deterioration of the Greek-American fabric, a warning to all who may wish to take ethnic pride in the wrong direction of politics, lobbies and criminal enterprises. Everything you will read in this book is based on official sources and news stories, from the award winning journalist Jack Anderson's syndicated column about Eugene Rossides, an alleged Greek Junta sympathizer, to the degraded monk come ex-Bishop Vikentios's interviews regarding St. Irene Chrysovalantou in New York, a unisex orgiastic commune and rumor mill of drugs and molestations under the direct auspices of the "Oecumenical" Patriarch Bartholomew. I would like to say "these are not your father's charities," but they are! If anyone in your family is a member of a Greek-American charity, including your local Orthodox parish, before you are surprised by a law enforcement or an FBI agent asking you questions (as it has happened), read this book. Afterwards, you may decide to have a pep talk with your parents and explain to them why charities must not have political affiliations in the U.S. or in Greece and the Archdiocese cannot be a Greek lobby. You may also start asking for proof of where your donations go and whether the organizations receiving them are active and validated by the IRS.Greek American Pimps unravels a history of mischief and gets to bottom of how it all started. If it was not true, it would be a who-done-it mystery novel.

Fully updated with the latest technologies, this edition covers thefundamental principles underlying fabrication processes forsemiconductor devices along with integrated circuits made fromsilicon and gallium arsenide. Stresses fabrication criteria forsuch circuits as CMOS, bipolar, MOS, FET, etc. These diversetechnologies are introduced separately and then consolidated intocomplete circuits. An Instructor's Manual presenting detailed solutions to all theproblems in the book is available from the Wiley editorialdepartment.

Animating Film Theory provides an enriched understanding of the relationship between two of the most unwieldy and unstable organizing concepts in cinema and media studies: animation and film theory. For the most part, animation has been excluded from the purview of film theory. The contributors to this collection consider the reasons for this marginalization while also bringing attention to key historical contributions across a wide range of animation practices, geographic and linguistic terrains, and historical periods. They delve deep into questions of how animation might best be understood, as well as how it relates to concepts such as the still, the moving image, the frame, animism, and utopia. The contributors take on the kinds of theoretical questions that have remained underexplored because, as Karen Beckman argues, scholars of cinema and media studies have allowed themselves to be constrained by too narrow a sense of what cinema is. This collection reanimates and expands film studies by taking the concept of animation seriously. Contributors: Karen Beckman, Suzanne Buchan, Scott Bukatman, Alan Cholodenko, Yuriko Furuhashi, Alexander R. Galloway, Oliver Gaycken, Bishnupriya Ghosh, Tom Gunning, Andrew R. Johnston, Hervé Joubert-Laurencin, Gertrud Koch, Thomas LaMarre, Christopher P. Lehman, Esther Leslie, John Mackay, Mhaela Mihalova, Marc Steinberg, Tess Takahashi

Remember the name Lambrakis. As the Greek crisis unravels and the country is feverishly searching for a miracle, you will hear it. This book is about a band of international rogues headed by Dr. Lambrakis, a known convict and con-artist. It is based on court filings and it is all true.Georgios "George" Giallouridis and Mich Fatouros, two crusading activists for diametrically opposed causes and sworn enemies, had to bury their hatchets and join their intellects. They were fighting against time to save a country or two from embarrassment, in an insane web-based Transatlantic chase to stop a clandestine coup d'etat in the financially strapped nation of the Hellenic Republic. Dr. Emmanuel Lambrakis was the front man of END, a gang of rogues with an insidious plan, claiming they had a chest of \$2.8 trillion in U.S. bonds, ready to give loans to governments, starting with Greece, Cyprus and Alabama! Yes, ALABAMA! Were they for real, or was Dr. Lambrakis trying to destabilize the currency of the country that had taken him to task, the U.S. Dollar? And who was the CIA general Lambrakis had allegedly met in 2012? Did he have to quit his CIA post afterwards? A TRUE STORY, an international web based thriller from the acclaimed author of "GREEK AMERICAN PIMPS," Mich Fatouros.
