Pilgrim ...

Mark Pilgrim HTML5: Up and Running doesn't pretend to be a comprehensive exploration of HTML5, nor is it aimed at absolute-newbie web developers. It serves as a conceptual overview of the new features in HTML5 -- just enough to get any web dev or site designer oriented on what can be done, with just enough code samples to encourage further exploration.

HTML 5: Up and Running is an entertaining and informative read, although only about 200 pages long and full of code snippets in PHP and Javascript. It's barely hinted at in the precis. In fairness, the examples are reasonably easy to understand, but there's almost no explanation of the syntax of these other languages.
