revised. The new Regulations will come into force in the UK on 1 July 2002 under the Merchant Shipping (Safety of Navigation) Regulations 2002, and will replace the 1974 Chapter V (SOLAS V/74) Regulations. The Regulations apply to all UK ships on all voyages and to all other ships while they are in UK waters. This publication contains the full text for each Regulation, as determined by the International Maritime Organisation (IMO), along with explanatory guidance notes. It has been prepared to provide practical guidance to ship-owners, masters, crews and the shipping industry on the implementation of the new SOLAS Regulations.

Radio logs must be carried on the navigating bridge of certain vessels, to be inspected and signed off by the Skipper on a daily basis. This log book should help ensure compliance and is supplied with carbon paper. It supersedes the 1994 edition.

The principles of navigation have not changed, but the art of navigation has. With the right training and to some degree the right ECDIS, you can replace paper charts with an ECDIS in all operating conditions - even when GPS is unavailable. This manual is about sharing best practice and

ensuring that the transition is efficient and safe.

"The Seafarers Handbook for Australian Waters (AHP20) is an official nautical publication providing mariners with a description of the Australian physical and jurisdictional maritime environment. It is a first stop reference for international mariners and is popular with Australian commercial mariners because it combines important maritime information from various Australian government agencies under the cover of one nautical publication."--Website.
