Exhaustive in its scope, this book provides a comprehensive study of the natural and modified history of congenital heart disease. Focusing particularly on the discussion of fetal and post-natal outcomes, the contributors seek to place developments in historical perspective. Virtually all surgical and catheter-based strategies to enhance outcomes of all forms of congenitally malformed heart are analysed, covering the morphology and genetic basis of each particular abnormality, and issues that were germane to evolving different therapeutic strategies. Using data from the records of the Toronto Hospital for Sick Children, contributors highlight the complications of the various forms of therapies and identifies particular risk factors for mortality and morbidity.

Jeremy Clarkson gets under the bonnet in Clarkson on Cars - a collection of his motoring journalism. Jeremy Clarkson has been driving cars, writing about them and occasionally voicing his opinions on the BBC's Top Gear for twenty years. No one in the business is taller. In this collection of classic Clarkson, stretching back to the mid-1980s, he's pulled together the car columns and stories with which he made his name. As coal mines closed and house prices exploded to a soundtrack of men in make-up playing

synthesizers, Jeremy was already waxing lyrical on topics as useful and diverse as: \* The perils of bicycle ownership \* Why Australians - not Brits - need bull bars \* Why soon only geriatrics will be driving BMWs \* The difficulty of deciding on the best car for your wedding \* Why Jesus's dad would have owned a Nissan Bluebird \* And why it is that bus lanes cause traffic jams Irreverent, damn funny and offensive to almost everyone, this is writing with its foot to the floor, the brake lines cut and the speed limit smashed to smithereens. Sit back and enjoy the ride. Praise for Jeremy Clarkson: 'Brilliant . . . laugh-out-loud' Daily Telegraph 'Outrageously funny . . . will have you in stitches' Time Out 'Very funny . . . I cracked up laughing on the tube' Evening Standard
