Well, with the release of

the 8th edition army

book, those days are

effectively over.

Daemons are one of the trickiest armies to play now simply due to the amount of randomness thrown into the new book. The first big change comes from the Reign of Chaos table which is consulted when you roll for winds of magic.

Daemons of Chaos were one combined army in Warhammer Fantasy Battles. The focus on mono-god forces only became a thing in 8th Edition 40k, and Age of Sigmar. In Warhammer

Daemons always
showed up as a
combined force rather
than singular factions
for the most part.

Since the release of their codex in early 8th edition, Chaos Daemons have seen a number of updates, owing in part to their unique status as the only crossover army between Warhammer 40,000 and Age of Sigmar. As releases like Wrath and Rapture have added new models

to the range, we've seen new units and updated datasheets for the faction, but haven't had much in the way of updated Stratagems or rules.
